

TRAIL DESCRIPTIONS

RIVERVIEW & FERRY TRAILS

These trails offer great views of the river and a chance to observe songbirds, ducks, and birds of prey. The trails can be enjoyed in their entirety or visitors can enter from a number of locations and enjoy an abbreviated hike. While they are single-wide traffic in most Areas the trails have relatively little elevation changes.

EAGLE BLUFF TRAIL

This trail features more significant elevation changes. The southern portion of the trail features fantastic views of the Merrimack river and extends to the southern boundary of the parcel where it loops back on itself.

COTTONTAIL TRAIL

This short trail connects Ferry to Eagle Bluff and allows access to Eagle Bluff prior to the elevation change.
